PROJECT IDEAS

- → Ask your employees to look forward- what would they like to accomplish in the coming year? Collect ideas and then do some of your own brainstorming. What strengths of theirs can you plan to capitalize on? What areas can you maybe encourage growth in?
- → Review and update your pipeline and forecast. If you are holding deals on the forecast that haven't changed status or been updated in Q4 purge them. It's better to start with a fresh and realistic set of opportunities than to pull long shots into the New Year. Your forecast will be much more accurate if you are honest about your deals.
- → Schedule your referral network interactions for the first quarter of 2019. Determine the best time to invest time with your referral sources and get them on the calendar for the New Year. It's also a great excuse to wish them Merry Christmas and Success in the New Year.

CONTENT IDEAS

- Film a thank you video for all of your 2019 customers. Include their logos and pictures (as many identifiers as possible!). Involve your team members and encourage them to express their gratitude for the customers that keep you in business.
- Write a blog article discussing the best and worst memories of your year. Talk about lessons you've learned as a company, and what you're looking forward to in the coming year. Predict some trends that could impact your key audience in 2020.
- Develop and/or update your company description. This should include a summary of your audience, your difference, and your impact. Write three versions, varying in length and detail: a sentence, one paragraph, and 3 paragraph. Use this to update your LinkedIn company page and business directory listings, based on word-count limits and what's appropriate.
